

Although we certainly hope you are happy, if you should want to cancel your subscription, follow the instructions below. (There are also instructions on PayPal's site, but I find them very confusing.)

Steps to Canceling a Paypal Subscription

1. Login to your paypal account
2. Click on the history tab at the top
3. Find the subscription you want to cancel on the page
4. Click "details"
5. At the bottom of this page, click "cancel subscription"
6. It will prompt you again to make sure you wish to cancel the subscription. Click "cancel subscription"
7. You are done...

Remember, if you subscribe at \$29.99/year, you are locked in at that renewal rate for as long as you are a member. If you cancel, you may have to re-subscribe at a higher rate.
